**DETAILED ACTION**

***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-10, drawn to process for producing microspheres.

Group II, claim(s) 11-20, drawn to a system for producing microspheres.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the common technical feature in all groups is the production of microspheres through generation of an aerosol of initiated liquid monomer, falling through an inert gas to allow for polymerization. This element cannot be a special technical feature under PCT Rule 13.2 because the element lacks novelty and is shown in the prior art. *Levendis et al.* (US 5,269,980) discloses the production of an aerosol of liquid droplets, which can be previously initiated for polymerization, which occurs during the flight-time of the droplets (col. 1, l. 55- col. 2, l. 2), as claimed in claims 1 and 11.

3. A telephone call was made to Bryan Davidson on December 23, 2008 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
